

## RANDAL DAVIS

Randal Davis is the Deputy Director, Dept. of Development Services for the City of Hartford. Development Services is the City Department that oversees Economic Development, Planning, Housing, Licensing and Inspections and Blight Remediation Programs.

He brings 10 years of experience in Strategic Planning, Communications and Policy Analysis & Development within the public sector, along with 20 years of experience in Law and Higher Education.

At CTDOT, Davis was a key figure in the team responsible for launching Connecticut's first Bus Rapid Transit System (CTfastrak), and one of the lead corporate, government and community liaisons at the Connecticut Department of Transportation. He worked closely with the Project Team of the I-84 Viaduct Project Team in Transit Strategy Development, Program and Resource Planning and Public Communications and Community Engagement.

Before returning to Connecticut, Davis worked for Deloitte Financial on a year's long product liability litigation. In addition to law, Davis has focused closely on federal and state regulatory compliance, project implementation, information delivery and budgeting. He has worked for National and International corporations in the areas of marketing, hospitality, and administration.

Randal was born in Hartford and raised in Windsor, CT and has lived in San Francisco and New York City, where he worked for major national and multinational corporations as well as higher education organizations in the areas of marketing, administration and compliance. He studied Liberal Arts at New School University, New York, NY and Law at Rutgers School of Law – Newark, NJ, with a focus in Administrative Law, Public Governance and State & Federal Regulatory Oversight and Compliance and gained hands-on legal experience in Deloitte Financial's Product Liability Division. Randal is admitted to the CT and NY Bars but strongly believes that the best way to add value is by coupling his interest in Policy and knowledge of the applicable Legal and Regulatory Framework with his passion for leading, delivering and socializing complex, multi-disciplinary Programs and Projects.
